URGENT REQUEST

There is an urgent need for humanitarian aid in Haiti. Violent protests against the government have been escalating since February 7th as a result of corruption and misuse of foreign aid. As a result of the civil unrest, many businesses, stores, banks, hospitals, and schools have been forced to shut down and transportation within the country has become more restricted. Many of our friends and colleagues in the town of Croix-des-Bouquets are unable to access their jobs, grocery stores, medical care, and other essentials. We are hosting a special fundraiser to help get greatly needed food, water, health supplies, and monetary support to our 3P base in the town of Croix-des-Bouquets. We deeply appreciate all of the help you are able to give and we ask that you please forward your donations through our website at 3pHaiti.org/give.
